

ColorX Series P320X

With smart technology, ColorX Series P320X can detect humans, vehicles and pets. Equipped with ColorX technology, it provides true color night vision to break through the limits of darkness. Featuring an extra-large F1.0 aperture, ColorX Series P320X delivers nighttime footage with true-to-life color details even in extremely low light environments, without any additional illumination.

Set up the Camera on the App

Here is a guide on how to initially set up the camera via Reolink App.

Note: Before setting up, please connect your camera to the PoE switch using an Ethernet cable, then connect the PoE switch to your router with another Ethernet cable.

Step 1. Tap the icon  in the top right corner.

Note: If you've enabled the **Add Device Automatically** option on the App's Settings page, you can tap this device on the **Devices** page and turn to **Step 3** directly.

Step 2. Scan the QR code on the back of the camera. You may tap **Light** to enable a flashlight when setting up the camera in a dark environment.

If the phone doesn't respond, please tap **Input UID/IP** and then manually type in the UID (16-digit characters under the QR code of the camera). Then tap **Next**.

Step 3. Create a login password for your camera. Then tap **Next**.

Step 4. Name your camera. Then tap **Next**.

Step 5. Initialization finished! You can start live viewing now.

Install the Camera

Please follow the steps below to install the camera.

Step 1. Drill holes in accordance with the mounting hole template.

Step 2. Install the mount base with the mounting screws included in the package.

Notes: Run the cable through the cable notch on the mount base.

Step 3. loosen the adjustment knob by twisting it counterclockwise on the security mount, and turn the camera to get an ideal view.

Step 4. Turn the knob clockwise to fix the camera in place.
